March 7, 2023

We are expanding our community support and want to take this opportunity to announce our 2023 goal of working with teachers who have students that fall behind in their studies.

In today's educational environment, teachers cannot always provide the extra help to a child who is failing, reasons being class size and the limited time teachers have available for individualized instruction. Some studies suggest that building a strong educational foundation at the elementary school level pays great dividends throughout the child's school life. Our effort to help children who experience scholastic challenges, generated an idea of contracting teachers through a small scholarship program to deliver year-round or short-term tutoring. By placing our focus on the tutoring program, we believe this effort will provide some continuity and much needed support to students, as tutoring boosts student's advantage when developing strong Math, Science, Technological, and communications skills. Statistically, early intervention provides a better chance for student success well into the future.

Our kids have so much promise. My Favorite Charity Events Organization aims to help children reach full potential, gain self-confidence going forward, and achieve success. We feel *it is so worth it* to take time and interest in helping young people grow into contributing citizens in their community, and in the world. Not all children are born with the same opportunities. We hope to level the playing field by making our underserved children shining lights in the community.

We greatly appreciate your consideration to donate to this worthy scholarship program. ***Your donation of \$100 or more, or any amount on a monthly recurring basis is welcomed. Our donation process is secured by STRIPE, a secure payment processing platform.***

Alberta Valli, Director

**We are My Favorite Charity Events Organization. Joining the fight against childhood poverty in our community, we focus on creative solutions with the goal to improve the lives of underprivileged families with children. Our mission is to promote HOPE and EQUALITY among young students and seek out RESOURCES to support a successful educational experience for kids by providing meals, clothing, school supplies, and sponsoring an annual Christmas gift program for children who are in need in our**
